The Honorable Frank Lucas
House Committee on Science,
Space, and Technology
2321 Rayburn House Office Building
Washington, DC 20515

The Honorable Brian Babin
House Subcommittee on Space
and Aeronautics
2236 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Lucas and Chairman Babin,

I am writing on behalf of Tomorrow.io, a leading pioneer in the field of satellite technology, to express support for H.R. 6131, the Commercial Space Act of 2023. We believe that this proposed legislation holds significant promise for the future of the commercial space industry and its continued growth and innovation.

I am acutely aware of the immense potential that the commercial space sector represents for our nation's economy and technological advancement. H.R. 6131, with its comprehensive and forward-thinking provisions, embodies the kind of support and regulatory framework that the commercial space industry needs to thrive. The bill provides a solid foundation for the responsible and sustainable expansion of space activities, ensuring that the United States remains at the forefront of space exploration and technology.

We look forward to working closely with you, the House Committee on Science, Space, and Technology, and the House Subcommittee on Space and Aeronautics as you further refine and advance H.R. 6131. We believe that the commercial space industry is poised to make a significant impact on the global stage, and this legislation will be instrumental in realizing that potential.

In closing, thank you for your leadership in the House of Representatives and dedication to the advancement of American innovation. We stand ready to provide any support, insights, or expertise that may be beneficial as this legislation progresses.

Sincerely,

A handwritten signature in black ink, appearing to read "Thomas Cavett", with a long horizontal line extending to the right.

Thomas Cavett
