

H.R.5089, the Weather Act Reauthorization Act of 2025

Chris McCormick, Founder and Chairman, PlanetiQ:

"PlanetiQ not only supports expanding legacy data and missions for current and future weather forecasting, we also support newer data sets, processing methods and expansion of contracting options with the commercial sector for NOAA and in support of US Government's agencies weather forecasting responsibilities and applications for NOAA, NWS, FEMA, FAA and others."
