

## **H.R.5089, the Weather Act Reauthorization Act of 2025**

**Antwyne Johnson**, Director of Emergency Management, Liberty County, Texas:

*“As the Director of Emergency Management for Liberty County, Texas I completely advocate the reauthorization of the weather research and forecasting innovation act. Precise, prompt, and available weather data has been the core of adequate information used for emergency preparedness, response, and recovery. Having this act is pivotal in predicting the weather data with the scientific technology this will allow citizens of Liberty County, Texas and the nation to stay abreast of any developments. Let's continue to support this weather act reauthorization and stand by our country's elected officials this tool will assure public safety.”*
