**Statement of Technology Subcommittee Chairman Thomas Massie (R-Ky.)
Hearing on Cybersecurity Research and Development: Challenges and Solutions**

Chairman Massie: “We convene the first hearing of the Technology Subcommittee in the 113th Congress, held jointly with my colleagues on the Research Subcommittee. This Subcommittee sits at the intersection of technology and innovation, and is uniquely positioned to address topics affecting competitiveness of emerging high-growth industries. I look forward to learning from our witnesses today about cybersecurity research and development challenges, and I look forward to working with my colleagues to determine how we can eliminate barriers to entrepreneurship in our country going forward. In these difficult times, it is important that we continue to empower our nation’s innovators to maintain our economic competitiveness.”
